**Step 4:** use a ruler and rotary cutter for the long Straight edges and trim leaving a 1/8" allowance. Then take a scissors and trim the rounded ends. You can cut out the whole thing with scissors if that's your jam.

**Step 5:** Use your hole punch of choice to punch out 6 holes. The two for the snaps and the 4 at the end of the "SLITS"

What a cute bunch of Kaiju to color. Just wipe them off when you are done and use them again, and again, and again.

What to keep them organized, pick up a couple of binder clips and use the holes to make your very own custom reusable coloring book.
